Task Requirements

Jhaka Naka is a movie production house and you have to build a landing page. Requirements are written below.

1. Navbar

   The navbar should have two parts. Company logo on the left side and 3 options on the right side. The options will be:
   a. About us
   b. Our Movies
   c. Services

2. Landing section

   The landing section should have a background image filling the whole section. On the right side of the section, there should be a heading, a small paragraph, and a button.

3. About us section

   In the about us section, there should be a box containing the whole content. Inside the box, there will be an image on the left side and a heading, a small paragraph, and a button on the right side.

   There will be 3 sections for our vision, mission, and motto below the image. These sections must be in a single row in large devices and 3 rows with full width in mobile devices.

4. Our movies section

   This section should contain a header and button. Below that there should be 4 movie posters in a single row for large devices, 2 rows and 2 columns in tablet, and 4 rows and 1 column for mobile devices.

   Optional

   On hover, the image should get dimmer and the movie name should appear in the center.

5. Services section

   There should be a header. Below the header, there should be 8 cards containing an icon, title, and a short description of the service.

   Cards should be laid out in the order mentioned below.

   For large screen - 2 rows 4 column
   For Tablet - 4 rows 2 column
   For mobile - 8 rows 1 column

6. Footer

   The footer should contain the company name, a small paragraph, and copyright information in the center of the section.
